Here Is Quickest and Surest Cure For All Sore Feet

It is not necessary to walk on your hands to cure your feet as told in the old adage. Here is a treatment that brings relief immediately. It is considered almost a wonder by the medical profession.

"Dissolve two tablespoonfuls of Calocide compound in a bash of hot water. Soak the feet in this for full fifteen minutes, gently massaging the sore parts. (Less time will not give desired results.) Repeat each night until cure is permanent. The effect is almost like magic." All soreness disappears instantly and the feet feel so good one could shout for joy. Corns and callouses can be peeled right off. Sweaty, smelly feet and swollen, tender feet need but a few treatments. Bunions have the inflammation all drawn out and are soon reduced to normal size. Calocide is the most remarkable foot remedy known to science and should not be confused with patent powders and tablets that so many have tried in vain. A twenty-five cent package is said to be sufficient to cure the worst feet. Any good druggist has it in stock or will quickly get it from his wholesale house.
